

100V Volume Control with Cover

SP-VF6(6W), SP-VF30(30W), SP-VF60(60W), SP-VF120(120W)

Feature:

- PA system 100V input volume control with full sealed back cover.
- Background music system use attenuator of waterproof finish for bathroom, washroom and SPA.
- It is used to adjust the loudspeaker output in the room.
- It is used to keep same output level for one same speaker line, because the end the speaker line signal loss is rather big, so its output is less, thus volume controller is added to the front of the line to lower the speaker output so as to keep the similar ambient output level for the all of the speaker in the same line.
- High level white UV-protected ABS material to integrate together with the white wall and architecture design.
- Built-in transformer to control the PA 100V line loudspeakers.
- With 10 levels of volume attenuator and one position of off.
- Wall plate with waterproof mounting box and front panel are separated fixed together.
- Surface wall mount or in-wall mounting box included.

Optional: models with R means with relay 24V.

Specification:

Model	SP-VF6	SP-VF30	SP-VF60	SP-VF120
Description	100V Public Address System Volume Controller			
Rated Power	6W	30W	60W	120W
Relay	No			
Line Input	100V or 70V			
Volume Step	10 steps including off			
Attenuation Per Step	3dB			
Total Attenuation	33dB			
Material	UV-protected ABS in white			
Installation	Surface mounted or in-wall mounted with supplied mounting box			
Dimension	115(W)×70(D)×80(H)mm			
Weight	150g	250g
