

SP-PJ430T Pendant Speaker 30W

Features:

SURPASS SP-PJ430T is built within an HIPS resin bass-reflex enclosure using 5" cone-type pendant speakers and are intended for ceiling suspension installation. They are ideally suited for such applications as BGM and announcements at high-ceiling venues such as airports, factories and shopping malls.

- 100 V transmission technology
- 2-way coaxial system
- High-quality sound for speech and music
- White ABS bass-reflex housing with steel grille
- 5 m connection cable with canopy
