

SP-WCH09 Desktop Wireless Charger

Features:

Vertical design, three wireless charging, one charger can finish it, keep the desktop tidy. An integration of three devices for charging, the mobile phone can be charged as fast as when wearing a shell. Cool current LED lights, visible fast charging status, the rear circulating heat dissipation hole keeps the device cool without becoming hot when charging, greatly reducing the loss, and the charging efficiency with heat dissipation is stronger. Intelligently- matched fast charging, independent coils, which makes them do not affect each other. The smart chip controls trickle charging and automatically switches the current charging mode when the device is fully charged to protect the safety of the circuit.
